

# CONSTRUCTION INDUSTRY STAT UNIONIZATION IN BC PACK

UNION TRENDS

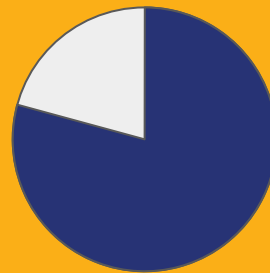

FALL 2018

**13%** of the construction workforce is unionized. The only sectors less unionized are business, professional services and finance.

**33,000** is the estimated number of BC's construction workers that are unionized (of 251,000).

16% of the private sector is unionized.

80% of the public sector is unionized.

**82%** of construction employers are small (<10 employees) and are 90% less likely to be unionized than large companies (>100 employees).

**1200** is the estimated number of construction employers operating union shops, out of 24,347 companies.

Trending shows that youth aged 17-24 are 50% less likely to be unionized than they were in 1981.

Women are the only demographic group as equally likely to be unionized now as in 1981.
